German Cockroach Treatment Preparation List (residential)

Sanitation is key to German Roach control. The following steps **must** be taken before we will treat.

Tasks that must be completed before we arrive: or may void the warranty

Clean kitchen thoroughly, including floor, stove, range hood, & counter tops. Clean inside & outside of dishwasher. Pull out refrigerator, stove, etc... clean behind & underneath. All cleaning should be done before, not after treatment.

Everything should be removed from kitchen cupboards, above & below the sink, drawers & countertops should be cleaned. Wash cupboards inside & out, wipe out drawers with damp rag, clean sink & countertops well. Items may be placed on a kitchen table, couch, or chair. You can cover with a newspaper or a sheet if you would like.

Bathroom cabinets & under sink should be cleaned. Wash cabinets inside & out, wipe out drawers with damp rag, clean sink, tub, inside & outside of toilet & scrub bathroom floor.

Pick up and remove trash inside & out.

Vacuum all carpets.

Shoes in the closet & other items on the floors should be removed. Clean closet shelves.

We need to have access to the baseboards. Please remove clutter away from the walls.

Fish tanks should be covered or removed. If fish tanks are covered, the air pump should be shut off.

Birds should be removed.

Children's toys, pet food dishes, & exposed food should be placed in a protective area.

Children 4 months and younger will need to be out of the home for 24 hours. Children 4 months to 2 years must be out 3-4 hours and children 2-4 years old must be out 2-3 hours.

After treatment is complete:

The initial German Roach service is a unique three treatment program. We treat every 2 weeks. You will still see roaches between the 1st & 2nd treatment as nothing kills the eggs. There is a 30 day warranty from the final follow up. You need to wait at least 10 days to call if you are still seeing roaches.

Do not wipe up the chemical! Don't wipe the cabinets or the backsplash. Don't mop up the baseboards. Only wipe food preparation surfaces.

Sanitation is essential! Don't leave empty beverage bottles or containers laying around. Keep areas under & behind stove & fridge clean. Wipe up grease and spills. Seal food tightly. Do dishes after each meal. Store pet food in sealed containers.

If you prefer a continuous warranty for German Roaches, you will have to sign a monthly service agreement (12 visits per year). This program may cover other pests as well. Ask for details.

If you have any questions before or after treatment call 813-703-4673.
